# INSTRUCTIONS:

Put the two fasteners on the ends of the string, making a small knot to stop the string and cut the extra length at the end.

**\*Use the waterproof pad as a worktop!**

Pour the powder into the mold and remove the exceeding powder with the scraper, leveling it. Place the leftover powder inside the extra bags.

Insert the string into the slots of the shape mold.

Remove the pointed cap on the dispenser and fill it with water.

Using the dispenser, pour a few drops of water onto the powder.

Dab the powder with a tissue to absorb excess water.

- ★ Shake the "Glow in the dark!" bag before use.
- ★★ Place the leftover powder inside the extra bags.

Place in a dry place and let it dry for 5 minutes.

If necessary, wet the parts of powder that have not thickened yet and let them dry for 5 minutes.

Carefully extract the shape just created from the shape mold.

You can bend the mold to facilitate the extraction of the shape. Repeat steps no. 2 to 8 to create other charms.

## TRICKS AND TIPS

1

1) You can put two or more molds side by side to create several pendants at the same time.

2

2) You can gather the leftover powder. Use the empty bags you have to save it.

11

Create the medallion with the same procedure and insert it into the necklace.

12

Decorate with the glitter using the ad hoc brush.

13

Let it dry for 10 minutes.
